PANAMINT. - A number of our citizens have still got the fever. One party left yesterday and two others will go to-day. We hope they will all make their piles, but unless this excitement is different from most of them (and we have personfrom most of them (and we have personally had experience of a goodly number) they will find it a very ch-quered affair. For our part, we intend to pin our formes to old Pioche. Though this is the season of our tribulation, our faith is not a bit weakened but that this camp will be contail right. Of course the issue ome out all right. Of course, the issue for weal or for woe all depends upon the results of exploring the depths of the for weal or for woe all depends upon the results of exploring the depths of the Raymond & Ely vein below the water letel. That exploration cannot be made until the machinery for pumping the stater is in motion. That may yet take some time to effect. It is a luge undersking to procure, bring hither and set up the vast, ponderous and complicated machinery required to raise a large stream of water from a depth of 1,200 or 1,300 feet beneath the surface. But all that can be done to expediate the matter is being done, and that is all any one can expect. Unfortunately the weather will be a very important factor in any calculation that may be made as to when the machinery will be ready for work. If as sometimes happens in this State, we should have several weeks of fine, clear weather, the roads will get into a condition that will permit the transportation of the weighty castings and pieces of gachinery required. It this should formately be the case, it is probable that machinery required. It this should for-minately be the case, it is probable that the works will be completed near the time originally anticipated. In any case we shall have to possess our souls with patience and do the best we can, for, in our opinion, those who hold on to the ead will be well rewarded for their faith.

COMMENCED. - Yesterday Colonel Allen commenced his duties as Justice of the Peace and looked as dignified as he announced his rulings as if he were a member of the Supreme Court of the United States. At White Pine the Colonel gave much satisfaction while performing simi-lar duties, and we have no doubt he will lar duties, and we have no doubt he will
do the same here. We stepped into the
court two or three time yesterday, while
a horse case was going on, and found the
lawyers badgering each other, and both
pitching into the witnesses in quite a
lively fashion, while his Honor looked on
as complacently as a hen with a newly
hatched brook of chicks.

REMEMBER that on Thursday evening the Pioche Minstrels will reopen for the Christmas season. To the old established favorites are added several tal-ented performers, whose efforts will cer-tainly give great satisfaction. The com-pany is industriously rehearing and will present their entertainment in excellent style. We hope their exertions will be rewarded by a crowded house. HURT.-Yesterday morning, while pro-

ceeding along Main street, Capt. Lubbock's horse fell, and in doing so, hurt his rider considerably. Dr. Deal, who was called to attend Capt. Lubbook, says his injuries, though painful, are not dangerous. A badly sprained ankle be-ing about the worst, though he suffered some severe contusions. We hope that some severe contusions. We hope that the Captain will speedily recover from his injuries.

RECONSTRUCTED.-Jack Gilmer arrived by last night's Hamilton stage. He tells that the firm of Gilmer & Salisbury bave bought out the interest of Travis Bros. in the Pioche and Hamilton stage line. They intend to reconstruct the whole outfit and put everything in first-class order. The trips will be made with regularity, and every care taken for the co-fort and safety of passengers.

Eastern Dispatches.

NEW YORK, Dec. 1 .- A call for a mass meeting of the longshoremen tlast night filled the great hall of the Cooper Institute to overflowing. Among the audionce was George Francis Train and a number of internationalists, communists, and other recognized agitators, a couple of whom sought to air their extreme views, but were received with but little Of the speakers previously announced to appear, only Richard O'Gorman and Col. John R. Fellows addressed the audience,

before public opinion as disturbers of the peace and violators of the law. Philadelphia dispatches say the failure of the sale of Forney's Press to McClure, was the result of a brisk cable correspondenc between Forney and a number of Republican politicians. That the latter preferring the liberal financial support of the paper continued as a regular party organ. The question involved was purely political, and the funds raised to purase the Press will now be devoted to

The Presidency of the Board of Aldermen, vacated by Alderman Vance, will probably be filled by Alderman Richard Plannagan, Democrat. The city budget, which remains to be definitely fixed, will probably accord with the views of the Board of Aldermen.

The Erie directors say the object of the injunction granted by Judge Westbrook yesterday, was obviously to effect the stock by causing a protest of interest to-day in London, but as payment of this interest was provided for a month ago, and there is no means of stopping the payment in London within the time, the movement will fail. The directors say also that the move is only another effort of Jay Gould to prevent the payment of sums for which the company is suing him.

CHICAGO, Nov. 1. - Washington specials are filled with rumors of the combinanation of more or less prominent politicians, to secure the retention of Supervising Archetect Mullett. Some of these reports state that the President is disposed to interfers in the matter. The Inter-Ocean's correspondent, however, telegraphs that these reports are altogether erroneous. He says the President is taking no part, in the matter, but leaving it entirely with the Secretary, and the understanding between the latter and Mullett is perfect; that as soon as a successor can be selected by the Secretary, that Mullett is to retire.

The same special says, it is understoood by friends of Justice Swaine that he contemplates retiring from the Bench of the Supreme Court in a few months, when under the law of Congress he can rely on full pay. If Justice Swaine concludes to retire, this will give to General Grant another appointment on the Supreme Bench, making five in all since he has occupied the executive office.

The Tribune's special says there is no doubt but that both the President and Secretary Bristow, in their communica tions to Congress, will take a very decided position with reference to specie payment, and while no one is appointed to speak by authority, it seems certain that they will recommend Congress to fix by legislation an early day for coin resumption, and that that day will be January 1st, 1876. It also seems probable that if such recommendations are sent to Congress, the financial discussion and excitement of last year can hardly be avoided, unless the committees shall decide to avoid discussion by declining to report back the financial measures.

SAN FRANCISCO, Nov. 30 .- A woman named Coats died suddenly yesterday afternoon in the house of Thomas Mc-Ardie on the corner of Main and Harrison treets. According to custom in cases of this nature, the body was taken to the Morgue. Both of the woman's eyes were found to be blackened, and her face bore other marks of ill usage.

Miss Jennie White, school teacher at San Pablo, who was run over by a runaway horse on Sacramento street on Saturday, died of her injuries at San Pablo yesterday afternoon. The father of the young lady, Alexander White, has had more than his share of afflictions. He came to California by the Nicaragua route and was accompanied by his wife, two daughters and son. The filibuster ing troubles were at their height when he passed through Nicaragua. During one engagement his wife and one of his daughters were both killed by stray balls and his son had part of his foot taken off. Jennie was his sole surviving

An attempt at assassination occurred about 4 o'clock this morning, in a lodg ing-house, No. 515 Sacramento street Aroom in the house was occupied jointly by two young men, named James E Paddock and Patrick C. Harrington, both employed in are staurant, who previous to this occurrence, were the best of friends. At a late hour last night Paddock returned from the Cliff House with a young girl, and sought to introduce his disreputable associate into the lodginghouse. Harrington was requested to vacate the room, which he indignantly declined to do and reproached Paddock for the scandal he was bringing on the house. The latter finally retired with his companion, swearing vengeance. BY TELEGRAPH! After his departure, Harrington fell asleep, and about 4 o'clock in the morning Paddock returned, and entering the room stealthily, he drew a pistol and commenced firing at Harrington while he was lying asleep. Four shots were discharged and the balls in each instance struck close to Harrington's body, but owing to the drunken aim of his roommate, be escaped unharmed. The shoot ing was heard by Officer Harris, who rushed into the bouse and went in search of Paddock. The scoundrel had secreted himself in another room. When the officer discovered him he was engaged in favor. One was hustled out of the hall. reloading his platel. San Faancisco, Dec. 1 .- A rumor is current on the street that M. S. Latham will soon retire from the position of Manager of the London and San Francisco Bank. The reason is the unsatisfactory results of the California Pacific Railroad scheme, Mr. Latham being the representative of much of the foreign capital invested, and the recent heavy loss to the bank, through the failure of Morgan's Sons, have brought about a condition of feeling between the home management and Latham, which has in duced the latter to forward his resignation, to take effect on the first of the
